# woodstock

## INDUSTRIAL SUPPLIES LTD

As a **family business** we endeavour to build and maintain close relationships with all our customers and suppliers, be they local or global. Founded in 1999, we have always been dedicated to giving individual attention and a personalised service.

Woodstock strives to **get it right first time** so a lot of hard work has been put into sourcing quality products, providing prompt competitive quotes and delivering goods on time.

Being **forward thinking**, we believe that investing in the company is crucial as we continue to develop and increase our range of services. Flexibility in delivering those services will enable us to provide whatever our clients require.

Woodstock's **fabrication shop** allows us to produce holding-down bolts, tailor-made items of all sizes to your requirements. We can also create a variety of light fabrication work to your specifications along with detailed drawings.

Woodstock Industrial Supplies Ltd offers a myriad of **specialised items** to satisfy our clients' needs. In addition to the core fastener range, the stores can set aside **dedicated areas** for specific clients.

We work with several industries including marine, petro-chem, rail, OEM's, construction, engineering, structural steelwork and a variety of utilities. Our team has the capability to source industrial items from around the globe.

The team's experience in a variety of industries has provided valuable lessons on how to work under pressure and **respond quickly**.

We are **nutsaboutbolts.org** . . . because we at Woodstock are passionate about what we do. Nuts and bolts hold our world together and we're proud to be a part of that.

## Here's what our customers say about us:

- **very helpful from start to finish,**
- **always looked after,**
- **never had a problem,**
- **perfect service - stay as you are,**
- **always on time,**
- **friendly attitude and effective deliveries,**
- **excellent service all round,**
- **overall performance very good,**
- **highly recommend this company,**
- **wish more suppliers could reach the standards of service given by Woodstock.**

# Solutions for *you*

## Considered a Bin System?

Let us take the procurement of fixings out of your hands. Our experienced staff will visit your site to check and replenish your stock on an agreed schedule. This saves you time and money and ensures stock availability at all times.

## Kitting

Customised assembled kits prepared and packed to customers' specifications by efficient teams at Woodstock. The kits may contain a mixed selection of fasteners and small components. Kitting includes component sourcing, checking, packing and labelling.

## Boxing & Assembled Bolts

Assembled bolts, nuts and washers prevent shortages of nuts & washers and minimises handling thus saving time on-site. Customised boxing or bagging of items increases organisation and ease of use.

## Not Just Fasteners

Woodstock supplies a range of associated industrial products including adhesives, aerosols, cutting and grinding discs, drills, hand tools, PPE, rag, taps and dies.

## Oils & Lubricants

We supply oils and grease produced by Anderol, Castrol, Chevron, Esso, Mobil, Molykote, Petro-Canada, Shell, Texaco and Total giving you access to a wide range. Some of the products for industrial and mechanical applications include engine, gear and hydraulic oils and transmission fluids.

## Petro Shutdown Service

Shutdowns are often performed in refineries to carry out inspection and maintenance work to ensure that safe, efficient production carries on until the next maintenance interval. During these shutdowns we have provided parts urgently needed to complete the job. One customer from the largest Petro-Chem said, ". . . **the turnaround was an outstanding success - your contribution was significant and appreciated.**"

## First Class Deliveries

When unforeseen circumstances occur we are ready to despatch, or deliver personally, at a moment's notice. Our own vehicles deliver daily to Hampshire, Dorset, West Sussex and Wiltshire. All other areas are covered by reliable national carriers. Export orders are most welcome and delivery worldwide can easily be arranged.
